SELECTED WATER RESOURCES ABSTRACTS

ANNUAL CUMULATED INDEXES TO V. 10, 1977

PART 1 AUTHOR
ORGANIZATION
ACCESSION NUMBER

SELECTED WATER RESOURCES ABSTRACTS is produced by the Office of Water Research and Technology, U.S. Department of the Interior, and published twice monthly by the National Technical Information Service (NTIS, U.S. Department of Commerce, for the Water Resources Scientific Information Center (WRSIC).

SELECTED WATER RESOURCES ABSTRACTS (SWRA) is available to Federal agencies and their contractors or grantees in water resources research upon request, citing contract or grant number and sponsoring agency. Write: Manager, Water Resources Scientific Information Center, Office of Water Research and Technology, U.S. Department of the Interior, Washington, DC 20240.

SELECTED WATER RESOURCES ABSTRACTS is also available on subscription from NTIS, 5285 Port Royal Road, Springfield, VA 22161. Annual subscription rates for the North American Continent are: SWRA Journal only, $75; Journal and Annual Indexes, $100; Indexes only, $50. Other addressees, write for prices.

SELECTED WATER RESOURCES ABSTRACTS

A Semimonthly Publication of the Water Resources Scientific Information Center, Office of Water Research and Technology, U.S. Department of the Interior

PACIFIC POWER & LIGHT COMPANY

The Secretary of the U.S. Department of the Interior has determined that the publication of this periodical is necessary in the transaction of the public business required by law of this Department. Use of funds for printing this periodical has been approved by the Director of the Office of Management and Budget through August 31, 1978.

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in Island Territories under U.S. administration.

FOREWORD

Selected Water Resources Abstracts, a semimonthly journal, includes abstracts of current and earlier pertinent monographs, journal articles, reports, and other publication formats. The contents of these documents cover the water-related aspects of the life, physical, and social sciences as well as related engineering and legal aspects of the characteristics, conservation, control, use, or management of water. Each abstract includes a full bibliographical citation and a set of descriptors or identifiers which are listed in the **Water Resources Thesaurus** (Second Edition, 1971). Each abstract entry is classified into ten fields and sixty groups similar to the water resources research categories established by the Committee on Water Resources Research of the Federal Council for Science and Technology.

WRSIC IS NOT PRESENTLY IN A POSITION TO PROVIDE COPIES OF DOCUMENTS ABSTRACTED IN THIS JOURNAL. Sufficient bibliographic information is given to enable readers to order the desired documents from local libraries or other sources.

Selected Water Resources Abstracts is designed to serve the scientific and technical information needs of scientists, engineers, and managers as one of several planned services of the Water Resources Scientific Information Center (WRSIC). The Center was established by the Secretary of the Interior and has been designated by the Federal Council for Science and Technology to serve the water resources community by improving the communication of water-related research results. The Center is pursuing this objective by coordinating and supplementing the existing scientific and technical information activities associated with active research and investigation program in water resources.

To provide WRSIC with input, selected organizations with active water resources research programs are supported as "centers of competence" responsible for selecting, abstracting, and indexing from the current and earlier pertinent literature in specified subject areas.

Additional "centers of competence" have been established in cooperation with the Environmental Protection Agency. A directory of the Centers appears on page iv.

The input from these Centers, and from the 53 Water Resources Research Institutes administered under the Water Resources Research Act of 1964, as well as input from the grantees and contractors of the Office of Water Research and Technology and other Federal water resources agencies with which the Center has agreements becomes the information base from which this journal is, and other information services will be, derived; these services include bibliographies, specialized indexes, literature searches, and state-of-the-art reviews.

Comments and suggestions concerning the contents and arrangements of this bulletin are welcome.

Water Resources Scientific Information Center
Office of Water Research and Technology
U.S. Department of the Interior
Washington, D.C. 20240

CENTERS OF COMPETENCE AND THEIR SUBJECT COVERAGE

- Ground and surface water hydrology at the Illinois State Water Survey.
- Metropolitan water resources planning and management at the Center for Urban and Regional Studies of University of North Carolina.
- Eastern United States water law at the College of Law of the University of Florida.
- Policy models of water resources systems at the Department of Water Resources Engineering of Cornell University.
- Water resources economics at the Water Resources Center of the University of Wisconsin.
- Eutrophication at the Water Resources Center of the University of Wisconsin.
- Water resources of arid lands at the Office of Arid Lands Studies of the University of Arizona.
- Water well construction technology at the National Water Well Association.
- Water-related aspects of nuclear radiation and safety at the Oak Ridge National Laboratory.
- Water resource aspects of the pulp and paper industry at the Institute of Paper Chemistry.

Supported by the Environmental Protection Agency in cooperation with WRSIC

- Effect on water quality of irrigation return flows at the Department of Agricultural Engineering of Colorado State University.
- Agricultural livestock waste at East Central State College, Oklahoma.
- Municipal wastewater treatment technology at the Franklin Institute Research Laboratories.

A NOTE ON THE INDEXES...

This cumulation is an index of AUTHORS, ORGANIZATIONS, AND ACCESSION NUMBERS appearing in the 1977 issues of SELECTED WATER RESOURCES ABSTRACTS. A table is provided below to facilitate the location of abstracts.

Inclusive Abstract Numbers	will be found in	Issue Number and Date

MAK, L. L. M.
Dose-Dependent Effects of Methylmercury on Limb Regeneration of Newts (Triturus Viridescens),
W77-08699 1018 5C

MAKAROV, V. F.
Selection of Parameters for Process Control of Biological Purification of Kraft Mill Effluents (Vybor kanalov upravleniya protsessom biologicheskoi ochistki stochnykh vod sul'fattsellyuloznogo proizvodstva),
W77-12351 1024 5D

MAKAROVA, G. D.
Distinctive Features of Self-Purification of Water and Sediments of a Shallow Sea as Exemplified by the Sea of Azov, (In Russian),
W77-02897 1006 5G

MAKEVNINA, M. G.
Use of Recording Method of Afterglow of Green Algae in Determining Soil and Water Pollution by Phytoxic Substances, (In Russian),
W77-04097 1008 5C

MAKHON'KO, K. P.
Vertical Distribution of Strontium-90 and Cesium-137 in Bottom Deposits of Rivers and Lakes, (In Russian),
W77-01560 1004 5B

MAKHOTIN, V. M.
Egg Incubation and Larval Rearing of Navaga (Eleginus Navaga Pall.), Polar Cod (Boreogadus Saida Lepechin) and Arctic Flounder (Liopsetta Glacialis Pall.) in the Laboratory,
W77-06792 1014 8I

MAKI, A. W.
Evaluation of a Toxicant on the Metabolism of Model Stream Communities,
W77-05637 1012 5C

The Freshwater Mussel (Anodonta SP.) as an Indicator of Environmental Levels of 3-Trifluoromethyl-4-Nitrophenol (TFM),
W77-09765 1020 5C

The Influence of Larval Lampricide (TFM: 3-Trifluormethyl-4-Nitrophenol) on Growth and Production of Two Species of Aquatic Macrophytes, Elodea Canadensis (Michx.) Planchon and Myriophyllum Spicatum L.,
W77-12245 1023 5C

Kinetics of Lampricide (TFM, 3-trifluoromethyl-4-nitrophenol) Residues in Model Stream Communities,
W77-07115 1015 5C

MAKI, T. E.
Effects of Stream Channelization on Bottomland and Swamp Forest Ecosystems,
W77-08920 1018 4A

Factors Affecting Forest Production on Organic Soils,
W77-04387 1009 4A

Silvicultural Aspects of Forest Drainage,
W77-04390 1009 4A

MAKIENKO, V. F.
Macrophytic Algae of the Vostok Bay (Sea of Japan), (In Russian),
W77-01142 1003 5C

MAKRUSHIN, A. V.
Possibilities and Role of Biological Analysis in Evaluating the Degree of Pollution of Water Bodies, (In Russian),
W77-08430 1017 5A

MAKSIMOV, V. A.
Evolutionary Aspect of the Reproductive Evology of Salmon of the Genus Salmo in Some Water Bodies of Kamchatka, (In Russian),
W77-00519 1001 2I

MAKSIMOV, V. M.
The Productivity, Fodder Value and Utilization of Nutrients by Alfalfa in Irrigation and Application of Macroelements and Molybdenum, (In Russian),
W77-12994 1024 3F

MAKSIMOVA, S. P.
The Decomposition Rate of Organic Matter of Stephanodiscus Hantzschii Grun. From the Channel of the Northern Donets Basin, (In Russian),
W77-12971 1024 5B

MAL'KUTA, A. N.
Hygienic Study of the Toxic Properties of Methanol-Containing Reclaimed Water, (In Russian),
W77-01602 1004 5C

MAL'TSMAN, T. S.
Zooplankton Development in Intensively Exploited Fishery Ponds, (In Russian),
W77-08945 1018 2I

MALAISSE, F.
Malacological Studies in the Lufira (Katanga) Artificial Lake Area: Distribution and Ecology of Aquatic Molluscs: Epidemiological Role of Intestinal and Urinary Bilharziosis Vectors, (In Danish),
W77-10238 1021 5C

MALAMENE, B. A.
Changes in Biocenoses of Planktonic Organisms Under Conditions of a Semi-Closed Production Cooling System and a Water Purification System, (In Russian),
W77-01876 1004 5C

MALAN'IN, A. N.
Forest Vegetation Conditions of the Sand Tract of Tosynkumy (Kazakh SSR), (In Russian),
W77-06031 1012 2I

MALCOLM, R. L.
Organic Carbon and Nitrogen Concentrations and Annual Organic Carbon Load of Six Selected Rivers of the United States,
W77-04230 1009 5B

Physical, Chemical, and Biological Aspects of Subsurface Organic Waste Injection Near Wilmington, North Carolina,
W77-05739 1012 5B

MALDONADO, A.
Nile Cone: Late Quaternary Stratigraphy and Sediment Dispersal,
W77-06650 1014 2L
